ABOUT ME

Proactive Information Systems undergraduate specializing in UI/UX Design and Fullstack Development. Experienced in leading academic projects and building web applications from concept to deployment. Eager to apply technical skills and gain professional experience through an internship or entry-level position.

EDUCATIONAL BACKGROUND

Horizon University Indonesia **Karawang, West Java**

Information System | GPA : 3,78 2023 - Present

- I have a strong interest in courses such as Web Programming and Information System Analysis & Design, as they offer a comprehensive foundation in the end-to-end process of system development from initial planning and requirement analysis to design, implementation, and deployment. These subjects enhance both my technical and analytical skills, which are essential for building efficient and user-focused digital solutions.

PROJECT EXPERIENCE

Horizon University Indonesia **Karawang, West Java**

UI/UX Designer (Invitation Wedding Apps) *Feb 2024 – May 2024*

- Designed aesthetic and responsive user interfaces for a digital wedding invitation application using **Figma**, ensuring a modern and visually appealing layout.
- Created high-fidelity wireframes and interactive prototypes to validate user flows and enhance the overall User Experience (UX).
- Conducted research on design trends to cater to diverse user preferences between traditional and modern themes.

Horizon University Indonesia **Karawang, West Java**

UI/UX Designer (Nexgen) *Sep 2024 - Dec 2024*

- Developed visual concepts and interface layouts focusing on intuitive navigation and user accessibility.
- Collaborated closely with team to ensure the final implementation aligned perfectly with the design mockups.
- Conducted usability testing to identify pain points and performed iterative design improvements based on user feedback.

Horizon University Indonesia **Karawang, West Java**

UI/UX Designer & Web Programming (SiPekat) *Sep 2024 - Dec 2024*

- Built the *SiPekat* web application end-to-end, leading the process from UI design in Figma to code implementation using HTML, Javascript, and PHP
- Designed efficient database structures to streamline community reporting and data management processes
- Optimized website performance to ensure fast loading times and mobile responsiveness across devices.

Horizon University Indonesia **Karawang, West Java**

Project Manager (DeLuna Dental Care Apps) *Feb 2025 – May 2025*

- Led the development of a **cross-platform dental clinic management system** (Web & Flutter Mobile App), featuring appointment booking, patient records, and financial reporting.
- Conducted **field observations** at a local dental clinic to gather requirements and ensure the product effectively solved real-world operational problems.
- Performed **functional testing** across both web and mobile interfaces to ensure seamless data synchronization and adherence to design specifications
- Facilitated team communication and monitored project progress using **Trello**

Horizon University Indonesia **Karawang, West Java**

System Analyst & Fullstack Programming (SDAE Website Inventory) *Sep 2025 – Dec 2025*

- Analyzed business processes for inventory management and designed System Flowcharts and Entity Relationship Diagrams (ERD).
- Developed CRUD (Create, Read, Update, Delete) functionalities for accurate stock management using CodeIgniter 3, MySQL, HTML, Tailwind CSS, PHP, and JavaScript.
- Performed comprehensive Unit Testing to ensure data accuracy and minimize bugs prior to deployment.

Horizon University Indonesia **Karawang, West Java**

Roblox Metaverse Campus Developer *Feb 2026 – May 2026*

- Designed and built an interactive virtual campus environment on Roblox Studio using Lua scripting to enhance digital experiences for the academic community.
- Developed custom interactive mechanics, environment assets, and user interface elements to ensure an engaging virtual campus tour.
- Programmed a dynamic, interactive quiz system using Lua scripting, featuring real-time score tracking, automated feedback, and custom GUI transitions for campus visitors.

CERTIFICATES

- Database Programming With SQL – Oracle Academy
- Techno Spark Competition – Horizon University Indonesia
- Intro to Data Analyst Course – RevoU
- Metaverse Roblox Campus Project - Horizon University Indonesia

SKILLS

- Hard Skill : Programming (PHP, HTML, JavaScript, Lua, Tailwind CSS, CodeIgniter 3, Laravel, React.js), UI/UX Design, Database Management (MySQL)
- Soft Skill : Teamwork, Creative Problem Solving, Adaptability, Communication.
- Software Skill : Microsoft Office, VS Code, Adobe Premiere Pro, Canva, Roblox Studio, CapCut, Figma, Google Workspace
